==========

EDUCATION

University of Oregon (2023-2027) Eugene, OR

- Clark Honors College, Bachelor of Science in Computer Science expected June 2027
- **GPA: 3.98**, Minors: Math, Entrepreneurship, and Political Science
- Relevant Coursework: Data Structures, Algorithms, Operating Systems, and C/C++ & Unix

Aurora Flight Training (2024-2026) Aurora, OR

- Private Pilot Certificate, 74.8 TT, 38.8 PIC, PAR Score - 93%, IRA Score - 95%
- Experience in C-172N/S/SP, DA-20 aircraft, First Class Medical

==========

SKILLS

- Programming Languages: C, C++, and Python
- Software & Tools: Git, VS Code, PyCharm, Linux/Unix, and Vim
- Technical Areas: Data Structures & Algorithms, Applied Machine Learning (academic + project-based)

==========

PROJECTS

Market Confidence Analyzer - 3rd Place Winner Git Repo

- Built a real-time market confidence scoring system (0-100) aggregating multiple data sources
- Merges stock, crypto, housing, bonds, Polymarket data using FastAPI and streamlined HTML/JS interface
- 2 Person 24-hour hackathon contest, 3rd place winner out of 45 teams

AI in Aviation Research Thesis - In Progress Thesis Prospectus

- Clark Honors College Thesis examining the practical implementation of AI in aviation
- Connecting with pilots and industry leaders to design and test effective AI models
- Exploring the use of machine learning to capture and record radio communications and the use of computer vision
- Integrating data to display traffic visualization systems to enhance safety & situational awareness for single pilot operations
- Partnering with faculty and flight simulators to test and produce high-value pilot safety resources

==========

WORK EXPERIENCE

Ready Go Productions - Camera Operator/Broadcaster (2022-2023) Lake Oswego, OR

- Operated live broadcast cameras and commentated sporting events
- Worked in time-critical, high-pressure environments

Finlandia Sauna - Manufacturing Technician (2024) Tigard, OR

- Assembled electrical control systems and performed quality assurance on custom-built products
- Worked within production constraints to deliver reliable systems on deadline

University of Oregon - Computer Science Learning Assistant (2024-2025) Eugene, OR

- Mentored students in core CS concepts through debugging support and guided problem solving
- Collaborated with faculty on lesson planning and course structure improvements

University of Oregon Housing - Resident Assistant (2025-2026) Eugene, OR

- Performed on-call shifts, operating within a high-stress on-call environment
- Crisis response, managing student interpersonal conflicts, behavior, and mediation services
